Looking at the menu column on the left-hand side click on the link for “**Introductory Assignments**” and then click on “**Syllabus Quiz**”.

The screenshot shows the MyLabsPlus interface. On the left is a navigation menu with the following items: My Courses, Manage Course, Course Home, **Introductory Assignments** (highlighted with a blue circle and the number 1), Units, Assignments, Study Plan, Multimedia Library, Gradebook, Document Sharing, and Support. The main content area is titled 'Introductory Assignments' and has a 'Manage View' dropdown in the top right. Below the title, there is a section titled 'Introductory Assignments' with a list of tasks: 1. Take the **Syllabus Quiz**. You must get a 100% on this before you complete any other assignments. 2. View the [Using MyMathLab](#) Video. 3. View the [Introduction to MyLabsPlus](#) Video. 4. Complete the [Introduction to MyMathLab Problems](#). There are also several red notes: 'Note: The Study Plan Assignment must be completed to 100% to get a third attempt at a quiz.' and 'Note: See the [Study Plan Assignment Handout](#) for an easier way to get to the Study Plan.' A red arrow points from the 'Introductory Assignments' link in the left menu to the 'Syllabus Quiz' link in the main content area.

Now you can click the “Start Test” button to begin your assessment.

You **will not** have to reinstall the Lockdown Browser again when you take other tests on the same computer.

If you switch to another computer, you **must install** the Lockdown Browser again on **that computer** before taking an assessment that requires it. Therefore, it is recommended that you always take your tests on the same computer.

Thank you and good luck.
